ACME CORPORATION

Employee Handbook

Sample document for Azure AI Search RAG demos

Version 2026.1 | Effective: January 1, 2026

Policy IDs: RW-12, BP-04, SEC-03

This handbook summarizes selected company policies for remote work, benefits, and information security. Use it as test content when indexing PDFs from Azure Blob Storage into Azure AI Search.

1. Introduction

Welcome to Acme Corporation. This handbook helps employees find clear answers about workplace policies. It is written as realistic RAG sample data: multiple topics, headings, policy IDs, and fact-dense paragraphs so you can test chunking, embeddings, hybrid search, and metadata filters.

Questions this document can answer in a RAG demo include: How many remote days are allowed? Who approves remote schedules? What is the equipment stipend? When does vision coverage start? Is security training required before VPN access?

2. Remote Work Policy (RW-12)

Policy RW-12 governs remote and hybrid work for full-time Acme employees in the United States. Managers remain responsible for team coverage, customer response times, and performance standards whether employees work onsite or remotely.

2.1 Eligibility and schedule

Employees may work remotely up to three days per week. The remaining workdays must be spent at an approved Acme office or customer site unless an exception is documented in writing. Remote days should be scheduled in advance so teams can plan collaboration and meetings.

Managers must approve remote schedules by Friday of the preceding week. Last-minute remote requests may be denied if they conflict with onsite duties, client visits, or team ceremonies. Temporary full-remote arrangements require HR and department director approval.

2.2 Equipment stipend

Equipment stipends are $500 per year for eligible full-time employees. The stipend may be used for ergonomic chairs, monitors, keyboards, headsets, or home-office networking equipment that supports productive remote work. Unused stipend balances do not roll over to the next calendar year.

Receipts must be submitted through the Contoso Expense portal within 45 days of purchase. Acme-owned laptops and phones remain company property and are not purchased with the stipend.

2.3 Availability and communication

While remote, employees must remain reachable on Teams during core hours of 10:00 AM to 3:00 PM local time unless an alternate arrangement is approved. Status messages should indicate meeting blocks and focus time. Customer-facing roles may have stricter availability rules defined by their manager.

3. Benefits Policy (BP-04)

Policy BP-04 describes dental and vision benefits under the Acme Plan. Benefits enrollment is managed by HR during open enrollment and qualifying life events. This section is intentionally dense so RAG systems can be tested on multi-fact paragraphs and proposition-style questions.

3.1 Dental and vision waiting periods

The Acme Plan covers dental after a six-month waiting period and vision after ninety days for full-time staff. Part-time employees are eligible for vision only after one hundred eighty days. Dental coverage is not available to part-time employees.

Waiting periods begin on the employee's benefits-effective date recorded in Workday. Coverage start dates are calculated in calendar days. Employees transferring from part-time to full-time status may need a new waiting period for dental unless HR grants credit for prior continuous service.

3.2 Dependents and documentation

Eligible dependents include a legal spouse and children under age 26. Proof of relationship may be requested during enrollment. Dependent coverage begins on the same date as the employee once waiting periods, if any, are satisfied.

3.3 How to get help

For claims questions, contact Acme Benefits Support at benefits@acme.example or call 1-800-555-0142 on weekdays between 8:00 AM and 6:00 PM Central Time. For plan documents, open the Benefits Hub on the employee intranet and search for BP-04.

4. Information Security Policy (SEC-03)

Policy SEC-03 protects Acme systems, customer data, and employee accounts. Violations may result in loss of access, disciplinary action, or termination. Security requirements apply equally to office and remote workers.

4.1 Authentication and VPN

Multi-factor authentication (MFA) is required before VPN access is granted. Employees must enroll an authenticator app or approved hardware key. SMS-only MFA is not sufficient for privileged accounts.

Security training is mandatory before VPN access is granted. New hires complete the Security Essentials course within their first seven calendar days. Annual refresher training is due each November. Accounts without current training are automatically blocked from remote access.

4.2 Devices and remote access

VPN is permitted only on company-managed devices that meet endpoint protection baselines. Personal computers may not connect to the corporate VPN. Lost or stolen devices must be reported to the IT Service Desk within four hours.

4.3 Offboarding and device wipe

Upon resignation or termination, IT initiates a remote device wipe for company laptops and phones. Employees must return badges and hardware within five business days. Access to email, Teams, and source control is revoked on the last working day unless Legal requests a litigation hold.

5. Time Off and Holidays

Full-time employees accrue paid time off (PTO) at a rate of 6.15 hours per pay period, which equals approximately twenty days per year. Unused PTO may carry over up to forty hours into the next year. PTO requests should be submitted at least two weeks in advance when possible.

Acme observes the following U.S. holidays: New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, the day after Thanksgiving, and Christmas Day. Holiday pay rules for part-time staff are described in the Timekeeping Guide on the intranet.

6. Frequently Asked Questions

Q: How much is the equipment stipend?

A: The equipment stipend under policy RW-12 is $500 per year for eligible full-time employees.

Q: When does vision coverage start for full-time staff?

A: Under the Acme Plan (BP-04), vision coverage for full-time staff begins after a ninety-day waiting period.

Q: Is security training required before VPN?

A: Yes. Security training is mandatory before VPN access is granted, and MFA is also required (SEC-03).

End of sample handbook. Document purpose: Azure Blob Storage upload to Azure AI Search indexer / integrated vectorization for RAG retrieval testing. Not legal advice; fictional company policies only.
